supports and services  
THAT FOSTER self-determination.

8/8/19

Department of Social Services  
Public Stakeholder Meeting to discuss

## **EVV Requirements for Personal Care Services**

August 20, 2:30 - 4:00  
Jefferson City

The 21st Century Cures Act requires Missouri to implement Electronic Visit Verification (EVV) by January 1, 2020 for all Medicaid-funded, personal care services, both agency and self-directed. This includes personal assistant services covered through the Department of Mental Health Home and Community Based Waivers. The State of Missouri, Department of Social Services (DSS) is holding a public stakeholder meeting to discuss the requirements of the 21st Century CURES Act in EVV.

[Click](#) for the public notice with the date, time, and location. We encourage personal care providers, targeted case management entities and waiver participants to participate in this opportunity to learn more about the EVV requirements, the steps the State is taking to meet the requirements, and to ask any EVV questions you may have.
